## JobOps Product Configurator

### Product Certification Training

This 2-part web training course offers a thorough instruction of the JobOps Product Configurator add-on module, covering the topics listed below. This course is offered to current JobOps Solution Providers, JobOps Certified Consultants and JobOps end users.

- Product Configurator Setups and Terminology
- Approach in Creating Configurations
- Analyze Existing Configuration
- Inclusion Rules and Price Adders and Rules
- Providex Code Snippets and Standard Variables
- Labor Estimates
- Work Ticket Parts
- Text Construction Capabilities
- Configuration Wizard – Test and Live Drive
- Reconfiguring a Work Ticket

Please see the training schedule posted on this website for dates and times of scheduled classes. The course is led by a Synergistic Certified JobOps Consultant. You will receive a course book prior to the start of the training. This class is a real-time learning environment, combining the interaction of a classroom via the internet. Throughout the course you can ask questions of the instructor and collaborate with other participants. You will need a computer with high-speed internet access and a telephone to dial into the toll-free number provided upon confirmation of your registration.

**Prerequisite:** For Solution Providers and Certified Consultants, certification in the JobOps Base and Time Tracker modules required. For end users, prior attendance of JobOps Base and Time Tracker certification training or working knowledge of JobOps Base and Time Tracker modules.

A required certification exam is administered to attending JobOps Solution Providers or JobOps Certified Consultants. The Certification Exam must be scheduled with the instructor in order to receive confirmation of your registration. The test is intended to fairly assess your knowledge and understanding of key Product Configurator concepts and features. In order to become product certified in the module, you must pass the test with an 80% or better passing score. Additionally, a configuration must be constructed and working after passing the certification exam.

If you have any questions please contact Stacy Schultz at (612) 367-7367, [sschultz@jobops.com](mailto:sschultz@jobops.com) or Ryan Rick at (612) 367-7358, [rnick@jobops.com](mailto:rnick@jobops.com).
